PROFESSIONAL SUMMARY

Software Developer with 2+ years of experience building responsive, scalable web applications using React.js, Next.js, and TypeScript, plus 1 year of hands-on C# experience. Proficient in Redux and React Query for state management, Zod for schema validation, and Jest for testing. Reduced unnecessary re-renders by 30% through rendering optimization. Uses AI-assisted development to improve productivity, code quality, and delivery speed. Follows clean code practices and industry-standard coding guidelines.

WORK EXPERIENCE

Software Developer | Datastack Technologies **July 2024 – Present**

React.js, *Next.js*, *TypeScript*, *Redux*, *React Query*, *Zod*, *Jest*, *CSS*, *C#*

- Develop responsive, scalable web applications using React.js, Next.js, and TypeScript across multiple business workflows, following industry-standard coding guidelines.
- Reduced unnecessary component re-renders by 30% through rendering optimization, improving application performance and responsiveness.
- Manage application state with Redux and handle server state (data fetching, caching, synchronization) with React Query.
- Implement schema-based validation of forms and API data using Zod, improving type safety and data reliability.
- Write unit and component tests with Jest to improve code quality and prevent regressions.
- Build reusable UI components with clean, responsive CSS and integrate REST APIs to deliver consistent user experiences.
- Use C# (1 year of experience) and object-oriented programming principles to collaborate with backend teams, understand full-stack workflows, and integrate REST APIs.
- Leverage AI-assisted development tools to accelerate coding, debugging, refactoring, and unit test writing, improving productivity and code quality while reviewing all generated code before merging.

Web Development Intern | ITNetworkz **April 2023 – July 2023**

- Gained hands-on experience in web development, building and testing web pages and features as part of a development team.
- Applied HTML, CSS, and JavaScript fundamentals to real project tasks while following team coding standards.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, C# (1 year), HTML5, CSS3, PHP

Frameworks & Libraries: React.js, Next.js, Redux, React Query (TanStack Query), Zod

Testing: Jest, Unit Testing, Component Testing

AI-Assisted Development: AI Coding Assistants, Prompt Engineering, AI-Assisted Debugging, Code Review and Refactoring, Test Generation

Concepts: Object-Oriented Programming (OOP), State Management, REST API Integration, Responsive Design, Component-Based Architecture, Performance Optimization, Reusable Components

Databases: PostgreSQL

CS Fundamentals: Data Structures, DBMS, Computer Networks

Developer Tools: Git, GitHub, VS Code, Visual Studio

PROJECTS

Pet Adoption System **HTML, CSS, JavaScript, PHP**

- Built a full-stack pet adoption platform with user authentication, pet listings, and adoption request management.

EDUCATION

BS in Data Science | IIT Madras (Online Degree Programme) | CGPA: 6.57 **Sep 2024 – Present**

Bachelor of Commerce | YCMOU, Samarth College, Lakhani | 68.75% **May 2022 – May 2025**

Diploma in Computer Science & Engineering | Govt. Polytechnic Sakoli | 92.40% **May 2022 – May 2024**
